

ASTRUMSOLAR®

ASTRUM SOLAR FACT SHEET

About the Company

Astrum Solar is a multi-state installer of residential and small commercial solar panel systems in the Eastern U.S. The company is also one of the region's largest aggregators of Solar Renewable Energy Credits (SRECs). Astrum Solar has installed hundreds of systems throughout the mid-Atlantic and is on pace to complete 500 solar installations in 2010. Founded in 2007, the company has grown by providing:

- Superior solar expertise with all work performed exclusively by Astrum Solar employees
- A seamless, turn-key customer experience
- Peace-of-mind guarantees that lead the industry
- Online performance monitors on all systems
- Top value and an upfront option for Solar Renewable Energy Credits
